BOSS

BR-800

A Full-functioning Digital Studio — to Go

BOSS knows a thing or two about portable recording. After all, their BR series has been a staple in home studios ever since home studios went digital. The BOSS **BR-800** is loaded with pretty much everything that has made the BR series the go-to digital recorder for affordable portable recording. Leading the charge is its 4-track simultaneous recording capability (8-track simultaneous playback plus stereo rhythm-track playback). Add to that guitar, bass, and vocal effects from BOSS's flagship GT-10 and VE-20 processors. And you can go anywhere with the BR-800, as it can be powered by six AA batteries.

Built-in high-quality stereo microphones let you easily throw down song ideas. Plus, a rhythm machine lets you take your ideas from sketches to fully formed tunes. But the fun doesn't stop there! Plug the BR-800 into your computer, and it instantly becomes a USB audio interface and control surface for your favorite DAW. And to get you up and running, crafting music on your computer, BOSS has included a copy of SONAR 8.5 LE software along with a full complement of audio loops and backing tracks.

Specs: 8-trk play/4-ch record • 4 pres • 9 faders • 24-bit/44.1kHz • 1GB SD card (supports up to 32GB cards) • USB

BR800 8-trk Digital Recorder.....List ~~$524.99~~ ONLY $16/mo. **$449.00**

BR-1600CD

Record, Produce, and Publish with This "Studio in a Box"

Check out this complete 16-track digital recording studio! Giving you all the sonic power of a computer-based setup, but with the added portability and reduced cost factor of computer-free functionality, the **BR-1600CD** is ready to record up to eight tracks simultaneously. Once you've got your tracks in, you can use BOSS's super-popular COSM effects to produce them; you've got compression, amp modeling, EQ, bass cut, vocal pitch correction, and more. Plus, there are a total of 256 virtual tracks you can use for recording or backing tracks.

The BR-1600CD's internal 80GB hard drive holds your content, and you can burn completed projects by using the onboard CD burner. If you want to finish up tracks on your computer, just connect the BR-1600CD to your computer via USB.

Specs: 16-trk play/8-ch record • 8 pres • 13 faders • 16-bit/44.1kHz • 80GB HD • CD-RW • Dig I/O: S/PDIF • MIDI • USB

BR1600CD 16-trk Digital Recorder.....List ~~$1749.99~~ ONLY $53/mo. **$1499.00**

BR-1200CD

Record Tracks, Mix Tracks, Even Program Drums

The **BR-1200CD** makes recording, mixing, and CD burning simple! Equipped with a powerful COSM multi-effects processor, the BR-1200CD gives you all the tools you need to take your tracks from idea to completion. It even gives you amazing mic models, which emulate expensive condenser mics. The built-in effects help you finalize your tracks. Realistic acoustic drums and percussion are included, as well as a variety of bass sounds, such as slapped, picked, and fretless basses. The EZ Compose feature makes ultra-realistic custom programming a snap. There's also a selection of great loop phrases on the internal hard drive. Correct pitch and add harmonies with the Vocal Tool Box, and for the finishing touch, tap into the Mastering Tool Kit to polish your tracks.

Specs: 12-trk play/2-ch record • 2 pres • 11 faders • 16-bit/44.1kHz • 40GB HD • CD-RW • USB

TASCAM

DP-03

DP-03

Compact and Complete Digital Recording System

DP-008

DP-004

Tap into the convenience of digital recording, but get a decidedly analog feel! The **DP-03** 8-track portable recorder boasts nine faders plus dedicated knobs for EQ, level, and pan controls. This means you can record tracks and perform mixing functions with hands-on ease. Onboard effects let you polish a full mix before you burn to disc via the handy built-in CD-RW burner. Alternatively, you can pull out the SD card you just recorded to and take your new recordings to any computer! A very convenient USB connection is also onboard.

If you're looking for studio features in a digital recorder that's ready to hit the road, then you'll love the **DP-008**. Sized to fit in a guitar case, this easy-to-use 8-track recorder features built-in microphones and battery power, so you can truly get creative anywhere. Record two tracks at once (and up to eight total). Use the built-in reverb to add depth to your tracks. The DP-008 records to a portable SD card (a 2GB card is included), and you can transfer tracks to your computer via USB 2.0. It even has a tuner and a metronome! Looking for an even more compact, more affordable version? The ultra-portable 4-track **DP-004** fits the bill perfectly!

ZOOM Q3HD

High-definition Video, Right in Your Hand

Make great HD videos, complete with premium picture and stereo sound, from an incredibly affordable, super-portable handheld recorder: Zoom's outstanding **Q3HD**! You can choose between 720p or 1080p to get the video quality you want. Use the 4x zoom and the multiple lighting settings to get amazing visual results. You'll also love the audio quality you get from the Q3HD's pair of outstanding onboard mics. And after you shoot your video, you can check it out on the Q3HD's large display. You can even turn the Q3HD on its side and watch in landscape mode! An onboard speaker lets you preview your audio. When you're ready to share your handiwork, use the included software to take your video from the Q3HD into your computer — and then onto the Web.

You'll love what this little Q3HD recorder can do. It's loaded with the features you need to get great results. You can shoot up to 45 minutes of 720p video with the onboard 2GB SD card, or upgrade to a larger card (the Q3HD accepts up to 32GB SDHC cards) for even more capacity. The built-in NTSC/PAL TV and HDMI output lets you plug the Q3HD directly into your television, so you can enjoy what you shot in all its glory — even before you download the files to your computer. And when it's time to share your video with friends, family, or the rest of the world, you'll love the built-in USB 2.0 cable and the included HandyShare editing and YouTube uploader software. You also get Apple QuickTime and even two AA batteries. Everything you need to get started is in the box, and top-notch accessories are available, including a road-tough case. Be sure to call today to find out more about the amazing Q3HD!

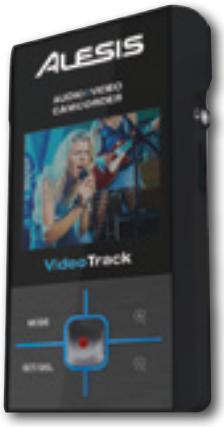
ALESIS VideoTrack

This Video Recorder Is Serious About Audio — Perfect for Capturing Gigs and Rehearsals



Let's face it: you're into great-sounding music and audio, and if you're going to get a video recorder, it should be too. That's why you should go with Alesis's cool new **VideoTrack**. This portable video recorder was designed from the ground up to capture studio-grade sound. That means you can use the VideoTrack to record your band rehearsals and gigs, and you'll have videos that are worthy of not only YouTube but also your band's demo. Of course, even if you're not playing in a band right now, you'll dig the VideoTrack. Bring it to lessons, use it to capture your blog, grab a great feed of your kid's recital, or keep it with you to record random moments with friends and family. Whatever you do, it'll be easy to take those videos and share them — you can even capture still photos. The VideoTrack replaces your clunky old digital camera. It connects to your Mac or PC computer via USB for pain-free file transfer, and it records to affordable SD cards.

SONY

PCM-D50

High-end Portable PCM Recorder with Swiveling Mics for Flexible Recordings

Make high-quality stereo digital recordings anywhere! The budget-friendly, ultra-portable **PCM-D50** has stereo microphones placed in an XY pattern for superb imaging. And you can swivel the mics wide to capture sources — say, an orchestra or a full band — from out in the crowd. This recorder definitely doesn't skimp on the good stuff! It includes 24-bit/96kHz-quality audio, 4GB of internal solid-state storage (record up to six hours at 16-bit/44.1kHz!), a memory stick PRO-HG duo slot, and handy MP3 playback.

PCMD50 Handheld Recorder ..... List ~~$599.99~~ ONLY $18/mo. **$499.99**

PCM-M10

First-class Digital Recording Made Affordable and Portable

First, quality digital recording changed our perception of what premium sound could be. Then, it made the leap into more convenient and compact recording devices. Now you can tap into high-end portable recording technology at a totally budget-friendly value! Thanks to Sony, affordability doesn't have to mean compromise; when you want both high-resolution digital quality and the flexibility of different recording formats, you need this recorder. The **PCM-M10** packs in much of the vibe and sound quality of the highly regarded PCM-D50, yet it also does some things that its bigger brother can't, such as record straight to MP3! The PCM-M10 can also play back MP3s, so you can load it up with your favorite tracks. You can even use the built-in practice features to slow tracks down as you learn each riff and passage. This is an incredibly compact rehearsal tool you can truly take anywhere!

Plan on making lots of quality recordings? You're in luck. The PCM-M10's built-in 4GB flash memory has plenty of room for your recordings and files, and you can even use an additional microSD card for a storage-space boost! The PCM-M10 is incredibly easy to use, thanks to its smart control layout and large backlit display. This amazing little recorder is available in white, red, or black.

ALESIS

PalmTrack

The Affordable Way to Get Great Recordings on the Go

Handheld recorders are all the rage, and with the **PalmTrack**, Alesis proves that you don't have to spend a fortune to get surprisingly high-quality sound plus a slew of extra features. First of all, the palm-sized PalmTrack has a bunch of different recording modes, so you can tailor it to capture whatever you need to record each day. Use the 4-mic Omni mode to capture surround-style sound of the whole band practicing in the room. Go with Stereo mode when you just want to capture sound right in front of the PalmTrack — great for capturing your singer/songwriter ideas. You can even plug your own mic into the 1/8" jack. On top of the flexible recording capabilities (up to 24-bit/48kHz WAV files or standard MP3s), the PalmTrack also has a bunch of built-in effects and processing to help you finalize your tracks. You can use chorus, delay, and reverb to get creative. You'll also appreciate the bass-compensation tool, which helps to reduce the boomy proximity effect of close-miked instruments and vocals. All in all, the PalmTrack is an outstanding value, giving you a flexible, versatile recording solution that's sized to go anywhere and is capable of capturing release-ready recordings! If you have questions about the PalmTrack, give your Sweetwater Sales Engineer a call today!

ZOOM

H1

A 2-track Studio That Fits in Your Pocket

Imagine being able to carry a complete field-recording rig in the front pocket of your jeans. That's exactly what you get from the revolutionary new Zoom **H1** handy recorder. Running on only a single AA battery, the H1 lets you record for up to 10 solid hours. It comes with a 2GB microSD memory card, but it can record onto cards as large as 32GB, so you won't have to carry extra memory. Record using an external microphone or a stereo line-level signal via the H1's 1/8" input, or take advantage of the H1's onboard pro-quality XY stereo condenser microphones. Whether you need up to 24-bit/96kHz PCM WAV format for professional post production or memory-saving MP3 format (48kbps–320kbps) for the Web, you'll get it from the H1. And thanks to the built-in USB 2.0 port, uploading files to your computer from the H1 is quick and easy.

TASCAM DR-07mkII

New!

The Affordable Way to Get Great Recordings Anywhere

TASCAM quality and performance packed into an incredibly compact, amazingly affordable recorder! The **DR-07mkII** handheld digital recorder is easy to use, records to convenient SD or SD-HC card media, and gives you up to 24-bit/48kHz quality (you can also record MP3 files). Its onboard stereo microphones give you excellent sound capture, but you have the option of plugging in your own mic if you prefer. To ensure you get great recordings every time, the DR-07mkII includes a switchable low-cut filter and a very handy analog limiter. You can even engage an automatic gain setting on the input. Easily transfer your files to the computer via the DR-07mkII's high-speed USB 2.0 connection. Want a convenient rehearsal tool? The variable-speed Audition function lets you slow down difficult musical passages without changing the pitch. What an incredible handheld value!

DR07mk2 Handheld Recorder ..... List ~~$279.99~~ ONLY $10/mo. **$149.00**

DR-05

The Super-portable Way to Get Amazing Recordings

New!

Step up to incredibly clean, clear digital recording, with this amazingly compact unit from TASCAM. Smaller, lighter, and easier to use than other handheld recorders in its class, the **DR-05** puts high-quality stereo recording in the palm of your hand. The DR-05 is capable of recording in MP3 format at up to 320kbps, as well as in Broadcast WAV format at up to 24-bit/96kHz resolution. A pair of uniquely designed omnidirectional condenser microphones provides crystal-clear recording, and these mics are able to handle sound-pressure levels up to 125dB, making the DR-05 perfect for live event recording.

You get plenty of handy recording functions, including automatic peak reduction, automatic and manual gain settings, and a rumble-reducing low-cut filter. The DR-05 also sports a self-timer, allowing you to delay the start of its recording for 5 or 10 seconds. What's more, the DR-05's Level Align feature matches the relative volumes of both channels, so you can create balanced recordings right in your recorder!

DR05 Handheld Recorder ..... List ~~$149.99~~ **$99.99**

DR-100

Feature-packed Portable SD Recorder

The **DR-100** is a slam-dunk portable recorder! It features four built-in microphones — two cardioid and two omnidirectional — yet also offers two XLR microphone inputs, each with phantom power. So you can record with your favorite pro-grade condenser microphones. What's more, the DR-100 has a speaker for easily previewing your recordings. It also comes with a rechargeable battery and a wireless remote for convenient remote operation. Recording on the go? You'll be ready for anything with the DR-100!

DR100 Handheld Recorder ..... List ~~$599.99~~ ONLY $12/mo. **$329.00**

DR-08

Quality Digital Recording from an Astonishingly Small Unit

Slip this incredibly slim and compact recorder into your pocket, and you're fully equipped to capture quality 24-bit/96kHz audio — anywhere! You can vary the angle of the **DR-08**'s stereo mic configuration, so it's easy to get just the right setup for your audio source. An 1/8" stereo mic/line input lets you plug in an external mic or another sound source. The DR-08 is also great for practice, thanks to its Variable Speed Playback feature. Check out recorded results instantly via the built-in speaker. And you can move those sound files onto your computer easily, thanks to the DR-08's USB 2.0 connection. All this and more from a truly pocket-sized unit! Call today to find out more!

YAMAHA

C24

Professional Digital Recording Just Got Even More Portable

When it comes to handheld devices, no other recorder measures up to Yamaha's **C24** digital audio recorder. At a mere 2 oz. with battery, the C24 is the world's smallest and lightest recorder. But Yamaha didn't go light on its features or capabilities. In addition to the C24's massive 2GB of internal flash memory, you can easily expand its recording capacity by adding a high-capacity microSD card. It features two great tools that make it an excellent training aid: an onboard tuner and a built-in metronome. Use the C24 to record your practice sessions or band rehearsals in stunning 24-bit/96kHz digital audio, then play back your recordings with its onboard speaker. You can even tune its playback with a built-in 5-band equalizer for optimum performance. The C24 also comes with an attachment clip that lets you mount it on any standard microphone stand.

C24recorder Handheld Recorder ..... List ~~$300.00~~ ONLY $10/mo. **$199.99**

W24

A Great Handheld Recorder, Both in the Studio and in the Field

Yamaha's **W24** handheld recorder gives you the power to record audio in 24-bit/96kHz digital quality, without the need for any additional gear. In the field, you'll appreciate its highly sensitive XY-positioned microphones, which capture stunningly detailed stereo sound, and its lightweight design. The highpass filter, which curbs low-frequency rumble from wind and handling, is a real plus too. And in the studio, its built-in tuner, onboard metronome, and included wireless remote control will really come in handy. No matter where you are or what you're recording, the W24's built-in peak limiter can be a lifesaver, as it suppresses those unforeseen extra-loud transients. With the W24, you've got the tools you need!

W24 Handheld Recorder ..... List ~~$458.00~~ ONLY $11/mo. **$299.99**

KORG MR-2

Astonishing DSD Quality in an Easy-to-use Handheld

Premium sound quality, convenience, features — you get all three with Korg's amazing **MR-2**! This little number lets you capture unbelievably high-quality audio without the hassle of an involved setup. And we're not talking run-of-the-mill quality; we're talking premium 1-bit sound in a handheld SD recorder! You get high-performance onboard stereo mics, an amazing range of recording and playback formats, and dozens of recording setup presets that get you ready to record at a moment's notice.

Options are important, especially if you want to get the most out of your recorder. That's why Korg's MR-2 is made to support a whole slew of recording and playback formats. The MR-2 packs plenty of handy built-in tools that get the job done! Take advantage of 40 great recording setups that instantly adjust the MR-2's mic sensitivity, limiter, low-cut filter, and EQ settings. A USB 2.0 port makes uploading files fast, and the MR-2 even comes with KORG's acclaimed AudioGate conversion and editing software.

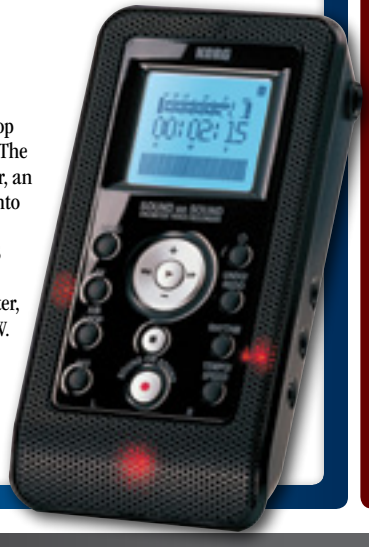
KORG SOS

This Portable Recorder Is an Amazing Songwriting Tool



Unlimited sound-on-sound recording! Capture your inspiration and develop your ideas with the amazing **SOS** handheld/tabletop recorder from Korg. The SOS "Sound on Sound" recorder lets you record one part on top of another, an unlimited number of times! That way, you can transform a musical idea into a full-on song. Play in one guitar part, layer in another, and then put bass underneath it all. Onboard drums get you going, and amazing Korg REMS effects give you great tones; you can even slow down or speed up audio for recording or practice ease. Once you connect the Korg SOS to your computer, you can easily separate all the tracks and load them into your favorite DAW. Use only the parts you want, and edit them each individually. The SOS fits comfortably in your hand but also sits nicely on the tabletop, whenever you need a hands-free recording solution.

SOUND DEVICES

Field Recorders

744T

This Unbelievably Rugged 4-track Field Recorder Has an 80GB Hard Drive

This is one incredibly compact professional 4-track recorder! The **744T** records four assignable tracks of audio (at either 16- or 24-bit rates and up to 192kHz) via its built-in 80GB hard drive or CompactFlash media. Its components are housed in a lightweight, rugged aluminum and stainless steel chassis, and it uses a removable Li-on rechargeable battery.

The 744T features two channels with XLR inputs, as well as phantom power, highpass filters, and limiters. It also offers two channels of line/mic level input via TA3 connectors. The big brother of the 744T, the **788T**, doubles the number of input channels for a full eight tracks of simultaneous on-the-go recording. For extra protection, carry your 744T or 788T in a tough **CS3** case.

Specs: 744T In: 2 x XLR, 2 x TA3 • Out: 2 x TA3, 1 x TRS • Dig I/O: AES, S/PDIF, FireWire, C. Link, word clock, ambient time code • 24-bit/192kHz **788T** In: 4 x XLR, 4 x TA3 • Out: 6 x TA3, 1 x 1/4" headphone, 1 x 1/8" headphone • Dig I/O: AES, S/PDIF, FireWire, C. Link, word clock, ambient time code • 24-bit/192kHz

ONLY $144/mo.

788T	Portable Recorder, 8-trk	$5995.00
CS3case	Portable Recorder Case	$160.00

702

You Can Take This 2-track CompactFlash Recorder Anywhere

Sound Devices' products are built tough and to very high standards. And though compact, they're packed full of features. The **702** is a streamlined 2-track CompactFlash recorder that's loaded with two Sound Devices next-generation preamps, complete with phantom power, limiters, and highpass filters. These units might be considered the next step beyond DAT recorders, with 24-bit resolution and sampling rates up to 192kHz, as well as a ton of features, including MP3 decoding. The **702T** includes the same features as the 702, adding time-code functionality.

Specs: 702 In: 2 x XLR • Out: 2 x TA3, 1 x TS, headphone • Dig I/O: AES, S/PDIF, FireWire • 24-bit/192kHz **702T** includes word clock I/O, time code

ONLY $66/mo.

722

The Built-tough 2-track Recorder with a 40GB Drive

The Sound Devices **722** 2-track recorder gives you the option to record to its internal 40GB hard drive, to CompactFlash media, or to an external FireWire drive. This versatile, compact unit writes and reads uncompressed PCM audio at high bit rates and sample rates, and it also supports MP3 recording playback. Its preamps are designed specifically for high-definition recording, and they provide amazing frequency response, low distortion, and very low noise. The super-compact, lightweight 722 also includes a range of analog and digital connections for audio and video applications. The durable nylon **CS3** case adds shock protection and insulation.

Specs: In: 2 x XLR • Out: 2 x TA3, 1 x TS, headphone • Dig I/O: AES, S/PDIF, FireWire, C. Link, word clock • 24-bit/192kHz

ONLY $88/mo.

TASCAM

HD-P2

An Affordable Choice for Professional On-location Recordings

TASCAM's **HD-P2** packs 24-bit/192kHz recording and integrated time-code synchronization into a portable, affordable package. Its reliable design and high-end features take it well beyond consumer portable recorders, with built-in time-code chase, peak limiting, and FireWire computer connectivity. The HD-P2's two XLR mic inputs have switchable analog peak limiting, handy for unpredictable live recording.

Specs: In: 2 x XLR, 2 x RCA • Out: 2 x RCA, headphone • Dig I/O: AES, S/PDIF, SMPTE in (XLR), video clock in (BNC) • 24-bit/192kHz

Field Mixers

302

Compact Field Mixer Designed for Professional Media Production

The Sound Devices **302** field mixer gives you incredible sound quality in a compact and mobile-ready package. Designed to fulfill the standards of professional video and film production, the 302 gives you phantom power and all of the connections you need to accommodate the full spectrum of microphones, cameras, and wireless systems. Onboard mid-side stereo imaging across the first two channels as well as continuously adjustable input trims, highpass filters, and limiters on all three inputs make the 302 an essential field-production tool. And for extra protection, the 302 fits perfectly in a **CS3** case.

ONLY $46/mo.

302	3-ch Mixer	$1295.00
CS3case	Portable Recorder Case	$160.00

Specs: In: 3 x XLR, 1 x TA3, 1 x 1/8" • Out: 2 x XLR, 1 x TA3 (unbal), 1 x 1/8" headphone, 1 x 1/4" headphone • 3 mic pre • 20Hz–30kHz

552

5-channel Field Mixer for Professional Media Production

Hit the field with the Sound Devices **552**! This high-performance portable audio mixer and recorder is perfect for both basic and complex production setups. There are five microphone preamplifiers onboard, each with its own limiter, highpass filter, and direct output. From there, the three sets of balanced master outputs give you a wide range of connectivity flexibility. If you need to capture audio directly, there's a built-in SD recorder that can record industry-standard WAV files or basic MP3s. For total field freedom, the 552 can be powered by four AA batteries. And don't forget the **CS3** case!

Specs: In: 5 x XLR • Out: 2 x XLR, 2 x TA3, 1 x Hirose 10-pin, 1 x 1/8" headphone, 1 x 1/4" headphone • 5 mic pre • 20Hz–30kHz

CS3case	Portable Recorder Case	$160.00

Roland CD-2i

Easy SD and CD Recording

The Roland **CD-2i** makes it easier than ever to create and produce CDs! There's no computer necessary and no need for extra gear. Just grab the CD-2i, use its built-in stereo microphones to record whatever you want. Play back your tracks to check them out on the built-in stereo speakers, then burn everything straight to a CD. It's a perfect tool for music teachers, students taking lessons, or anyone who just wants a take-anywhere solution for recording and burning CD-R and CD-RW discs. The Roland CD-2i records to a thumbnail-sized reusable SD memory card, and you can power it with six AA batteries when AC power isn't available. Thanks to its built-in phono preamp, you can even use the CD-2i to transfer vinyl to CD. And there are a lot of great recording tools right onboard, including an phantom-powered input for an external microphone.

Specs: In: 1 x XLR, 2 x 1/4", 2 x RCA • Out: 2 x RCA, 1/8" headphone

ONLY $23/mo.

SUPERSCOPE PSD Series

Excellent Education-oriented Recorders

The PSD series from Superscope features professional-grade recorders that are designed to give you the tools you need to enhance music practice, rehearsal, and performance. Both the **PSD450** and the **PSD410** feature SD card recording and come with a complete set of 1/4" line, RCA, and 48V phantom-powered XLR microphone inputs, plus a built-in stereo microphone. The PSD450 adds an onboard CD burner and a built-in 40GB hard drive for plenty of recording space. Both record in compressed MP3 format and in either 16- or 24-bit high-quality WAV file format. An onboard USB port makes uploading files to your computer simple, and a large full-color LCD screen and intuitive controls allow you to easily access functions, effects, and rehearsal tools. The Superscope **PSD340** is a dual-drive CD recorder and MP3 CD player designed especially for musicians and music educators who use music CDs for accompaniment.

Specs: In: 2 x XLR, 2 x 1/4", 2 x RCA • 2 x RCA, 1/4" headphone • Dig I/O: S/PDIF • USB (PSD450/PSD410 only)

TASCAM BB-800

This Unit Makes It Easy for You to Record and Rehearse

It's amazingly easy to record quality audio on TASCAM's **BB-800**; in fact, everything you need to record and play back audio is right onboard, even the microphones and speakers! It records straight to handy SD card media. Two external microphone inputs let you record with your favorite mics, so you get great results no matter how you use it! This amazing little box is also a very convenient rehearsal tool that you can take anywhere you practice. You can loop songs, slow them down, and change pitch. The BB-800 comes complete with a built-in metronome and a handy tuner, so you don't have to carry around a bulky bag of extras! Want even more options? The **BB-1000CD** gives you all these great features plus the ability to record to a blank CD or an SD card!

MICROBOARDS® Technology

CX-1

All-in-one System Duplicates Gorgeous Discs

If you make short or medium runs of DVDs or CDs regularly, then you know what a hassle it can be to constantly order and reorder finished discs. Here's a great solution that gives you professional-quality results and lets you dictate exactly how many discs you want! The Microboards **CX-1** disc publisher gives you an all-in-one production package, controlled from your Mac or PC computer via a single USB 2.0 cable. A high-speed DVD/CD combo drive and built-in inkjet printer make printing and burning discs incredibly easy. Simply load up to 100 blank discs, and the CX-1 takes care of business. Print quality is outstanding, at up to 4,800dpi resolution, ensuring vibrant-looking, high-quality finished discs.

CX1 CD/DVD Printer/Duplicator..... ONLY $67/mo. **$1895.00**

G3 Disc Publisher

Small-footprint CD/DVD/Blu-ray Disc Publisher

If you sell CDs at gigs, then you know that image is everything. The best way to get a totally pro look is to print directly to the CD. When you have to burn and label CDs, DVDs, or even Blu-ray discs quickly, the **G3 Disc Publisher** gives you all the tools you need. Load up to 50 discs at a time, set up your project via the included PrintWrite software (Mac and PC), and let the G3 handle the rest! Each disc drops neatly onto a spindle, expertly burned and sporting your own custom label in staggering 4,800dpi detail. Its small footprint makes the G3 an excellent choice for your project studio or church — or anywhere that space is limited.

G3Publisher CD/DVD Printer/Duplicator..... ONLY $53/mo. **$1495.00**

CopyWriter Live

This Live Recorder Guarantees You Never Miss a Moment

The **CopyWriter Live** lets you record any event live to CD, then make duplicates in minutes using the same machine! This is the CD recorder for you if your school or house of worship is relying on tape-based machines to record live events. You can record a live feed from practically any audio source, including a microphone, a cassette deck, a mixer, and many others.

This is also the only recorder that has your back. You won't miss a moment of the performance just because you run out of disc time. Just put a blank CD in each slot; the CopyWriter Live will automatically switch to the second disc at the very moment the first one's full. Then, put a fresh disc in the first slot, and you're ready for more!

CWLive Recorder/CD Duplicator..... ONLY $25/mo. **$699.00**

MICROBOARDS® Technology

You've Made a Great Recording, Now What?

Sweetwater is proud to recommend Disc Makers and CD Baby, two companies dedicated to helping musicians turn their recordings into professional CDs and distribution-ready downloads. We think you'll be impressed with how similar our companies' values are — their dedication to great value, product quality, speed of delivery, and responsive customer service mirrors our own.

If you're looking for an easy way to manufacture major label quality CDs, and sell those CDs and downloads worldwide — including at the world's largest online music stores, iTunes and Amazon MP3 — we know you'll be pleased with your experience at Disc Makers and CD Baby.

Visit **www.discmakers.com/sw** or call 1-866-468-9353 for the finest in CD and DVD manufacturing, whether you need 1,000 discs, 100, or even just 10 professionally produced discs.

FREE DOWNLOAD

Download a free copy of ***Planning Your Album from Beginning to End,*** by Randy Chertkow and Jason Feehan at www.discmakers.com/sweet and get a coupon for $200 off CDs in Digipaks.

Visit **www.cdbaby.com/sw** for worldwide distribution and sales of your music, whether you want to sell downloads, CDs, or both. (In fact, even if you just want to unleash a quick download of your newest song to the world, they'll get it up on iTunes and dozens of other stores in as little as 48 hours – for just $9.95!)
